EXECUTIVE SUMMARY

An outstanding, self-motivated professional with around 2 years of experience in delivering enterprise solutions in domains like Mobility and Scientific core Analytics. Expertise in conceptualizing, designing, and coding technical solutions using JavaScript technology stacks to satisfy peculiar and complex business problem statements.

ACADEMIC RECORD

MS Data Science
2020-2022
Bahria University, Islamabad

BS Electrical Engineering
2015-2019
UET, Lahore

CARRER HIGHLIGHTS

FORI.inc
2021-PRESENT

Wrote frontend and backend for company's website which includes implementation of scientific research work and visualizing multiple metrics using React and NodeJS.

Coded frontend for an Admin dashboard with multiple apps, implemented filtering, pagination and much more.

Led and trained a team of 4 members in react and JavaScript technologies.

Developed and deployed Dashboards for a mobility sharing React-Native app with automated dataflow and refreshers.

Wrote Python scripts for scraping useful data for multiple projects.

Always played a vital role in development team by analyzing the problem and providing solutions to it.

Analyzing and pattern recognition in user's data and developing the relevant technology to answer the business questions.

Interactive Group
2019-2021

Developed and designed Learning management system (LMS) for KP TEVTA and BF Tech using Moodle.

Basic Web development using HTML, CSS and JavaScript.

CORE COMPETENCIES

JavaScript | Node.js | Express | HTML | CSS | Bootstrap | Tailwind | React.js | Material-UI | Syncfusion | Redux | MongoDB | My SQL | API Design & Integration | Python | NumPy | Pandas | Seaborn | Matplotlib | PowerBi | Tableau | AWS Quick Sight | Exploratory Data Analysis | Dashboard Integrations with MERN Stack applications

PROJECTS HIGHLIGHTS

❖ Built a REACT admin dashboard with themes, Charts, Calendar, Karban and more.

❖ Built APIs for implementation of research work, utilized chart-js to visualize the results.

❖ Implemented advanced UI with react for company's website along with complete user signup-login functionality.

❖ Built professional PowerBI dashboards, integrated automatic dataflow and refreshers with mongo-dB and embedded the dashboards in frontend side.
